NZBN:

9429030554665

Relevant Building Code Clauses:

B2 Durability, G1 Personal Hygiene, G12 Water Supplies, G13 Foul Water
E3 Internal Moisture

Statement on How the Building Product is Expected to Contribute to Compliance:

B2 - Requires basins and their fixings to have a guaranteed minimum durability period

G1 - Requires sanitary fixtures—including basins—to have impervious, easily cleaned surfaces (such as glazed earthenware or stainless steel), proper water seals, and to be safely and hygienically located away from food or living spaces

G12 - Governs the delivery of hot and cold water to basins, including flow rates, backflow prevention, and hot water temperature management to prevent scalding.

G13 - Mandates that wastewater from basins connects safely to the plumbing and drainage system with appropriate traps and waste pipes.

E3 - Requires surrounding walls, floors, and splash zones to manage water splashing and internal condensation, preventing water damage and mould growth

Limitations on the Use of the Building Product:

Must be installed according to installation guide and be installed by a registered Plumber. Refer to Installation requirements.

Design Requirements that Would Support the Use of the Building Product:

This product has been designed in accordance with AS/NZS 3500 Plumbing and Draining Standards and AS/NZS 1730 Washbasins.

Installation Requirements:

Installation of these products must be carried out by a Registered Plumber and in accordance with the manufacturer's installation instructions, applicable plumbing regulations and relevant NZ Building Code requirements
