PUNPKR

INSTALLATION

The product must be installed according to the instructions supplied.

CARE & MAINTENANCE

Punch products are made from quality materials chosen to suit bathroom and laundry environments. While they are designed to handle everyday moisture, they are not completely waterproof.

To help your Punch products last, make sure your space is well-ventilated to minimise humidity and moisture build-up. Prolonged damp conditions can lead to issues like mould or material wear over time.

Avoid ongoing or excessive water exposure, as this may lead to damage that is not covered by our warranty.

WATER TEMPERATURE

The supply water temperature at the tap must not exceed 55°C.

CLEANERS

We recommend the use of "Vibrance Acrylic Surface Cleaner" which has been specifically formulated for use on acrylic and vitreous china surfaces. Available from leading Building and Plumbing merchants. Special care should be taken when selecting other cleaners. Some cleaners are not suitable for use on acrylics and if used may cause failure of the product that will not be covered under warranty.

DOMESTIC WARRANTY PERIODS

All products carry a 10 year warranty.

For commercial warranty periods please refer to our website.

Warranty period commences from the date of purchase.

CONSUMER GUARANTEES ACT 1993 ("CGA")

The warranty referred to in this booklet do not limit or affect your rights and remedies under the CGA. The manufacturers' warranties are in addition to your rights and remedies under the CGA. For further information on your rights and remedies under the CGA please go to consumerprotection.govt.nz.

WARRANTY CONDITIONS

- Must be installed by a licensed plumber in accordance with NZ Building and Plumbing Codes
- Installation must follow the supplied instructions
- Water pressure must not exceed 500kPa, as per AS/NZS 3500.1
- Proof of purchase is required; warranty applies to the original purchaser only
- Warranty is void if the product is modified, misused, accidentally damaged, or repaired by an unauthorised person
- Surfaces must not be cleaned with harsh or abrasive cleaners, alcohol or acid-based products, or abrasive tools (e.g. scouring pads)
- Product must be protected from excess debris; in-line filters should be used where necessary
- Not covered for issues caused by hard water, rust, corrosion, or environmental conditions
- Indoor use only – warranty does not apply to products installed outdoors
- All warranty claims must go through an authorised Punch representative, service agent or plumber with a valid service request number
- If no manufacturing fault is found, or failure is due to incorrect installation, Punch may charge for the replacement, plumbing work, and associated costs
- Punch is not liable for any indirect or consequential loss, damage, or expense unless required by law.

Disclaimer: Products in this specification manual must by regulation be installed by licensed and registered trade people. The manufacturer/distributor reserves the right to vary specifications or delete models from their range without prior notification. Dimensions and set-outs listed are correct at time of publication however the manufacturer/distributor takes no responsibility for printing errors.
