BUILT ON TRUST

Trust is earned through consistent performance. Our Punch range is solid, reliable and dependable, without the premium price tag. Punch delivers durability that holds up over time. It's backed with warranties that give you and your customer peace of mind.

BUILT
TO LAST

QUALITY CONTROL

Punch products go through a comprehensive quality control process — from raw materials + component to final product testing — ensuring consistent performance, durability and reliability across every install.

Punch is built for the trade. Our product is designed for quick installs and reliable performance, job after job. It's simple to fit and built to last.

At Punch, we know that reliability and performance are critical on every job. That's why all our products are backed by a clear, comprehensive warranty, so you can trust that the items you supply will stand the test of time. From our toilets and basins to tapware, vanities, and heated towel warmers, each product is designed and tested to meet or exceed industry standard.

For full warranty information and details on specific products, visit punchnz.nz/warranty.

CLEANING & CARE

To maintain the appearance and performance of your product, regular gentle cleaning is recommended.

- Clean using a soft, damp cloth (not microfibre) and, if required, a mild soap solution
- Do not use abrasive materials such as steel wool, scouring pads, or abrasive tools
- Avoid harsh, acidic, caustic/alkaline, citric, alcohol-based, or ammoniated cleaners
- Bleaches and corrosive cleaning agents should not be used, as they may cause discolouration or damage to finishes
- After cleaning, rinse thoroughly with clean water and dry or polish with a soft cloth
- Products should be kept free from excess debris and cleaned regularly to prevent surface deterioration

Please take care when selecting cleaning products, as some cleaners are not suitable for certain materials and finishes. Damage caused by inappropriate cleaning methods, hard water, rust, corrosion, or environmental conditions is not covered under warranty. For indoor use only unless otherwise specified. Mild soap solutions can also be used on occasion.

For specific cleaning instructions, please go to punchnz.nz/warranty.

TOILETS

Punch toilets are built for performance, easy installations and reliability that lasts.

From top performing Vortex flushing systems which optimises water flow on low pressure water systems down to 17kPa, to allow for efficient operation, we have a range of dependable toilets to get the job done right every time.

Whether it's a replacement, a renovation, or a full new build, Punch toilets get the job done right, every time.

TAPWARE

Punch tapware makes it easy to create a cohesive look across your home. We offer a range of models and finishes so you can match taps across your house with ease.

Punch tapware is built for bathrooms, kitchens & laundries, covering everything from basin and sink mixers to bath spouts and slide showers. Designed for everyday use, the range delivers smooth operation, reliable performance and straightforward installation across every job.

All products are lead-free and fitted with trusted European ceramic disc cartridges for long-term durability and consistent flow. Quality finishes and robust internal components ensure dependable performance in real-world conditions, helping reduce callbacks and ongoing maintenance.

With standard fittings and a practical, consistent range, Punch tapware makes specification and installation simple - providing tradies with reliable solutions that are ready to perform on site.

FEATURES

Full tapware offer to create a cohesive aesthetic throughout your home

Matching designs across each range

Suitable for everyday use

European ceramic cartridges for smooth, reliable operation

Built for durability with easy installation features

Wide choice of mixers, spouts, and tap sets for any project
