Relevant Building Code Clauses:

B2 Durability [B2.3.1(c)]; F2 Hazardous Building Materials [F2.3.1]; G12 Water Supplies [G12.3.2, G12.3.7]

Statement on How the Building Product is Expected to Contribute to Compliance:

B2 -The product is manufactured from materials suitable for its intended use and is designed to maintain performance under normal conditions of use when installed and maintained in accordance with the manufacturer's instructions.

F2 -The materials used in the construction of this product are suitable for their intended application and are not expected to give rise to harmful concentrations of gas, liquid, radiation or solid particles at exposed surfaces when installed and used as intended.

G12 -The product is designed for connection to a building water supply system and contributes to the controlled delivery of water to sanitary fixtures or appliances, when installed in accordance with the manufacturer's instructions, applicable plumbing requirements and the stated pressure/temperature limitations.

Limitations on the Use of the Building Product:

This product must be installed by a suitably qualified person and in accordance with the manufacturer's installation instructions.
This product is intended for indoor use only, and must be used only within the stated pressure and temperature limits.
This product is not intended for the delivery of drinking water.

Design Requirements that Would Support the Use of the Building Product:

This product has been designed in accordance with AS/NZS 3718: Water supply - Tapware

Installation Requirements:

Installation of these products must be carried out by a Registered Plumber and in accordance with the manufacturer's installation instructions, applicable plumbing regulations and relevant NZ Building Code requirements.

Enya.nz

Maintenance requirements:

Maintenance must be carried out in accordance with the manufacturer's care and maintenance instructions. Regular cleaning should be undertaken following Enya's care instructions. Harsh chemicals, abrasive cleaners or unsuitable cleaning methods may damage the finish or performance of the product.
